

Speaking for more than 3500 utilities Eurelectric represents the full value chain of the European electricity industry in Brussels and beyond. Our priorities revolve around the full **decarbonisation** of our industry, the deployment of **electric solutions** to decarbonise other parts of the economy and the need to ensure a **fair energy transition**.

Eurelectric is looking at its Brussels' office for a:

Policy adviser on electricity wholesale markets

to join the Markets & Customers team in the Eurelectric Secretariat.

Job description

As wholesale markets policy advisor, you will:

- Develop your knowledge of wholesale electricity markets and business intelligence through daily interactions with industry experts and stakeholders.
- Monitor and analyse legislative and policy developments on wholesale electricity markets and other related areas.
- Contribute to Eurelectric's advocacy for a well-functioning integrated wholesale electricity market as a key driver to deliver a stable and cost-conscious supply of electricity to the industry and individual consumers and contribute to Eurelectric's advocacy on the implementation of the recent Electricity Market Design Reform.
- In particular, contribute to work streams linked to the implementation and reviews of electricity market guidelines (Capacity Allocation & Congestion Management, Electricity Balancing and Forward Capacity Allocation). Handle working groups and contribute to the preparation of Committee meetings.
- Interact with members to build consensus and develop Eurelectric's positions and policy recommendations on electricity wholesale market integration projects and other electricity market-related issues.
- Ensure timely delivery of consultation answers and reports.
- Develop and implement lobby campaigns and ensure external representation towards the EU institutions and other stakeholders, such as ENTSO-E and ACER, notably in the Market European Stakeholder Committee.

Requirements and competencies

- An appropriate university degree (energy economics, engineering, political science, or law)
- A good understanding of EU energy policy-making and lobbying
- 2 years hands-on experience in electricity market regulatory issues and processes
- Ability to deal with high level of technicity on electricity markets
- Excellent organizational and communication (writing and oral) skills
- Ability to learn fast, be proactive and adapt to a variety of tasks
- Fluent in English, other languages a plus.
- Interest in working in a fast-moving international environment.

Submit your application, including a CV and motivation letter (quoting "ref. PAWM") to grondinelli@eurelectric.org by 22 May.
